CHAPTER 1

GENERAL

AIMS

1. The aim of the Cadet Program (CP) is to develop in youth the attributes of good citizenship and leadership, promote physical fitness and stimulate the interest of youth in the sea, land and air activities of the Canadian Forces (CF).
2. The aim of Master Cadet is to provide an Army Cadet with the theoretical knowledge and practical experience required to participate in corps activities and appointments as an activity leader.

PROGRAM MISSION AND PARTICIPANT OUTCOMES

3. The mission of the CP is to contribute to the development and preparation of youth for the transition from adolescence to adulthood, enabling cadets to meet the challenges of modern society, through a dynamic, community-based program.
4. CP participant outcomes are the benefits for the cadet during and / or after their involvement with the program that relate to knowledge, skills, attitudes, values, behaviour, condition and status. The five outcomes of the CP are:
 - a. emotional and physical well-being;
 - b. social competence;
 - c. cognitive competence;
 - d. proactive citizenship; and
 - e. understanding the CF.
5. The program mission and participant outcomes are explained in greater detail in CATO 11-03, *Cadet Program Mandate*.

OUTLINE OF TRAINING

6. The Star Level Program is a directed program carried out at the corps focused on giving all cadets instruction and opportunities to develop knowledge and skills in a variety of subject areas while introducing them to specialized activities. This program is divided into five levels of training.
7. Each star level is composed of performance objectives (POs) subdivided into enabling objectives (EOs).

PROGRAM DESIGN

8. Master Cadet has been designed:
 - a. assuming that the majority of Master Cadet cadets are between 16 and 18 years of age;
 - b. assuming that the majority of cadets have successfully completed Gold Star;
 - c. considering that youth at this age have increased demands on their time outside of the CP such as work, school, sports and other extracurricular activities;
 - d. considering that these cadets are now taking on much more responsibility with regard to the operation of their corps including instruction, planning, organizing and conducting corps activities and working in admin, supply, etc;

- e. using age-appropriate learning strategies;
- f. using 30 minutes as a standard period of instruction;
- g. by providing a programming mix consisting of limited mandatory and more flexible complementary training including on-the-job training where the cadet is assigned duties to aid in the delivery of the local cadet program and independent learning where the cadet seeks out practical opportunities to develop their own knowledge and skills;
- h. including training which is experiential and skill-based, with a lesser focus on theoretical knowledge; and
- i. assuming that learning will take place through a combination of programmed periods of instruction, unstructured discussions, teachable moments, and coaching / mentoring opportunities.

PERFORMANCE OBJECTIVES

9. The following are summaries of the POs common to all elements of the CP (allocated POs numbered 501 to 519) and the POs specific to Master Cadet:

Details regarding Master Cadet OJT are further outlined in Chapter 2 and Chapter 3.

METHOD OF ACHIEVING OBJECTIVES

11. The majority of Master Cadet POs are skill-related. Skills are acquired through practical periods of instruction and practice. To achieve the POs, a hands-on learning approach is essential. The following guidance may assist in the implementation of training:

- a. Some theory is required for safety purposes and for introducing new material. However, most material can be taught using practical methods.
- b. Ensure training sessions are well organized and planned in advance to allow instructors adequate time to prepare for the delivery and conduct of training. This includes reviewing lesson specifications and instructional guides and creating instructional materials as required.
- c. Schedule training so that the material is presented in a manner that ensures a smooth flow from one activity to the next.
- d. Ensure leadership assignments, appointments, and group projects are clearly outlined to the cadet, with clear measurable expected outcomes.
- e. Provide the cadet with a minimum of two weeks notice to prepare for periods of instruction they will present.
- f. Take adequate time to allow cadets to reflect upon and be debriefed on experiential training activities, to include future applications of the experience.

TRAINING PREREQUISITES

12. To participate in Master Cadet, youths must be members of a corps, as specified in A-CR-CCP-950/PT-001, *Queen's Regulations and Orders for the Canadian Cadet Organization*, Article 4.01.

USE OF THE QSP

13. This QSP shall be used as the primary authority governing the development, implementation, conduct and evaluation of the training and standards to qualify a cadet as Master Cadet. This QSP shall also be used by the D Cdts & JCR as the primary reference for validation of Master Cadet qualification training.

14. Master Cadet shall be conducted using this QSP as the training control document in conjunction with A-CR-CCP-705/PF-001, *Royal Canadian Army Cadets Master Cadet Instructional Guides*, A-CR-CCP-900/PF-001, *Canadian Cadet Organization Phase Five / Master Cadet / Proficiency Level Five Workshop Facilitation Guide*, and A-CR-CCP-705/PW-001, *Royal Canadian Army Cadets Master Cadet Logbook*.

15. Any deviation from the requirements detailed in this publication due to training limitations must be approved by D Cdts 3, Senior Staff Officer Youth Programs Development, NDHQ.

CHAPTER 2

TRAINING MANAGEMENT DETAILS

RESPONSIBLE AGENCY AND TRAINING ESTABLISHMENTS

1. The Managing Authority for the Army Cadet Star Level Program is the D Cdts & JCR. The conduct of said program is the responsibility of the Regional Cadet Support Units (RCSUs) through authorized Training Establishments (TEs). These TEs include:

- a. Royal Canadian Army Cadet Corps (RCACC); and
- b. Technical TEs, such as:
 - (1) expedition centres; and
 - (2) other zone, detachment or regional TEs as authorized by the RCSU CO.

TRAINING DETAILS

2. In accordance with CATOs 11-04, *Cadet Program Outline* and 40-01, *Army Cadet Program Outline*, the star program is conducted between 1 September and 30 June of each training year through a combination of training sessions and supported training days / weekends. Master Cadet is divided into three compulsory components that must be completed by all cadets. These components are:

- a. **Mandatory Training.** Mandatory training is a scheme of activities that is requisite for corps, and in some instances, specialized TEs, to conduct and for cadets to accomplish in order to complete the Star Level Program. Mandatory training consists of periods allocated to provide cadets with the front-end knowledge they will require to participate in OJT and satisfy the Assessment of Learning Plan (Chapter 3, Annex B). Master Cadet Mandatory Training includes two POs unique to this training level:
 - (1) **PO 513 (Attend a Workshop).** The cadet shall attend two days of tri-elemental workshops planned and conducted by the RCSU to enhance the cadet's skills, primarily but not exclusively, in leadership and / or instructional technique; and
 - (2) **PO 514 (Pursue Individual Learning).** The cadet shall select a specialization component from an Army Cadet Program activity / program area and demonstrate that they have dedicated extra time and effort toward bettering their own skills and / or contributing to that program area.
- b. **Complementary Training.** Complementary training is a scheme of activities that is requisite for corps to conduct and for cadets to accomplish in order to complete the star program. These activities complement mandatory activities and form an integral part of the star program. Complementary packages are designed to be self-directed (self study) and three periods (90 min) in length. The cadet shall be required to complete a minimum of three complementary packages of which a minimum of one package shall be elementally-specific content (POs numbered 520 or higher). While the packages are self study, they are not intended to be treated as take home assignments. Instead, cadets shall be given time during a regular training session or day to complete the packages, eg, on a parade night when the cadet is not scheduled to instruct or lead an activity. However, there is nothing precluding a cadet from completing additional self study packages at any time, should they choose to do so.
- c. **OJT.** OJT is a structured but flexible activity intended to provide the cadet with practical opportunities to continually develop knowledge and skills in the areas of leadership and instructional techniques. OJT is described in more detail in Chapter 4.

3. **Duration of Training.** Master Cadet is programmed to be conducted over two training years consisting of sixty sessions (three periods per session) and two training days / one weekend (nine periods per day). Cadets may also participate in training days / weekends in support of other levels of the star program. Master Cadet shall commence in September of the year following Gold Star, provided a cadet has qualified Gold Star or been granted a waiver.

4. **Master Cadet Assessment at the CSTC.** Because Master Cadet spans two training years, an opportunity exists for cadets to complete some components of the Assessment of Learning Plan, Chapter 3 Annex B, at a CSTC. Such opportunities are outlined in the Assessment of Learning Plan and are amplified in the individual assessment instructions.

5. **Master Cadet Training Outline.** The distribution of mandatory, complementary and on-the-job training in Master Cadet is as follows:

- a. Mandatory Training:
 - (1) Sixteen periods of instruction to be conducted during training sessions or days; and
 - (2) Four regionally facilitated workshops;
- b. Complementary Training: Nine periods of instruction to be conducted during training sessions or days; and
- c. All other time available within the thirty sessions and ten days construct of the corps program is allocated to OJT and completion of the different components of the Assessment of Learning Plan, Chapter 3 Annex B.

6. **Period Allocation.** Periods are 30 minutes in duration. A detailed period allocation is located at Chapter 2, Annex A. Total period allocation by PO is as follows:

Citizenship	501	Explain Global Citizenship	2	6

7. **Training Capacity.** The training capacity is limited to the capacity of the corps to meet supervision requirements in accordance with CATO 13-12, *Supervision of Cadets*, and in some cases to established quotas.

8. **Training Staff Requirements.**

a. Corps Training Officer (Trg O):

RANK	MOSID	NUMBER	QUALIFICATION
Capt	00232-02	1	Minimum: Captain Qualification; or CIC Intermediate Officer Qualification Preferred: CIC Senior Instructor; and CIC Training Officer (Corps / Squadron)

b. Master Cadet Course Officer (Crse O):

RANK	MOSID	NUMBER	QUALIFICATION
2Lt/Lt	00232-02	1	Minimum: Basic Officer Qualification; or CIC Basic Military Occupational Qualification Preferred: Military Occupation Course (Land); or CIC Basic Military Officer Qualification (Land)

Note: This position may also be filled by a OCdt, should circumstances warrant.

9. **Technical Specialists.** Technical specialists possess specific specialty qualifications. The number of technical specialists required is influenced by policy documentation specific to the activity (eg, CATOs, *Water*

Safety Orders) and by local circumstances, which will also influence the structure for instructional or training support cadre(s). Technical specialists required in support of Master Cadet are:

- a. Regionally recognized facilitation staff in support of PO 513 (Attend Workshops); and
- b. Specialists as required to mentor cadets understaking PO 514 (Pursue Individual Learning).

RESOURCE REQUIREMENTS

10. RCSU COs are responsible for ensuring that required equipment and supplies are available. The resources required in support of mandatory lessons are limited to the equipment used for the Cadet Fitness Assessment and normal presentation aids. Some complementary self-study packages do have specific resource requirements and the Crse O should refer to the associated instructional guides for details.

TRAINING ADMINISTRATION

11. **Cadet Evaluation.** Details on cadet evaluation are found in Chapter 3.

12. **Reports.** The Trg O should maintain a training file on each cadet to record their progress during the training year. The training file should consist, as a minimum, of a Master Cadet Qualification Record (Chapter 3, Annex B). Training files are temporary documents, which may be disposed of upon migration of the Master Cadet Qualification Record to the DND 2399, *Cadet Personnel Record*.

13. **Master Cadet Logbook.** As Master Cadet is intended to be largely self-directed in nature, A-CR-CCP-705/PW-001, *Royal Canadian Army Cadets Master Cadet Logbook*, is provided to the cadet as a tool to help guide and track their progress. The content of A-CR-CCP-705/PW-001 consists of a summary of pertinent information regarding OJT and requirements of the Assessment of Learning Plan and Assessment Instruments (Chapter 3, Annex B).

QUALIFICATION

14. The Master Cadet qualification is awarded to cadets upon completion of the requirements specified in Chapter 3.

RELATED DOCUMENTS

15. This QSP is to be used in conjunction with:

- a. CATOs;
- b. A-CR-CCP-705/PF-001, *Royal Canadian Army Cadets Master Cadet Instructional Guides*;
- c. A-CR-CP-900/PF-001, *Canadian Cadet Organizations Phase Five / Master Cadet / Proficiency Level Five Workshop Facilitation Guides*;
- d. A-CR-CCP-705/PW-001, *Royal Canadian Army Cadets Master Cadet Logbook*; and
- e. A-CR-CCP-951/PT-002, *Royal Canadian Army Cadets Adventure Training Safety Standards*.

OJT

16. For the cadet to be successful in the qualitative assessments related to the performance objectives for leadership and instructional techniques, the cadet must be provided with adequate programmed opportunities to prepare and practice skills.

17. To provide a suitably flexible and dynamic structure to OJT, the traditional period allocation and scheduling employed in previous levels of the program cannot apply. The cadet will participate in authorized sessions and training days / weekends with the cadet corps, within the 30 sessions and 10 day construct of the

corps / squadron program. All time beyond that required to complete mandatory and complementary training is allocated to OJT and completion of the different components of the Assessment of Learning Plan, Chapter 3, Annex B. In addition, a cadet may be selected to participate in additional OJT opportunities, such as:

- a. optional training activities,
- b. regionally conducted RDA / NDA activities, and / or
- c. technical TE conducted activities.

18. Under the supervision of the Crse O, or designated representative, the cadet completing OJT will be responsible for performing a variety of leadership appointments, assignments and projects and instructional responsibilities. Cadets may also be assigned general administrative, support and supervision roles and responsibilities. While the unique nature of each cadet corps will dictate the exact OJT experience a cadet will have. At a minimum, the cadet shall be provided with suitable assessment for learning and assessment of learning opportunities as outlined in the Assessment of Learning Plan, Chapter 3, Annex B.

19. The nature of the tasks assigned during OJT should be consistent with the abilities and the areas of interest demonstrated by the cadet. The cadre of senior cadets at a cadet corps should not be viewed as a hierarchy, but as a team of competent young people where each cadet is assigned tasks suited to their particular skills. Involving the cadets in the assigning of tasks and clearly and fairly distributing OJT tasks based on the cadets' time commitment and skills will help to build a strong leadership team at the cadet corps.

20. The cadet participating in OJT is undertaking training to develop leadership and instructional skills. It is unrealistic to expect perfect performance from cadets under training. Mistakes will occur and each should be viewed as a teachable moment to help the cadet learn from the experience and improve in the future. The Crse O has a responsibility to ensure that realistic expectations of performance are communicated and that the cadet feels they are in a safe environment where making a mistake is an accepted part of the learning process.

SPECIAL INSTRUCTIONS

21. **Scheduling.** When planning training, Trg Os are to be familiar with the lesson specifications found in Chapter 4. Some things to consider when developing the annual training schedule are:

- a. the combination of scheduling individual OJT and complementary training self study and collective mandatory training;
- b. the requirement to complete EO M507.01 (Develop a Personalized Schedule) in the first few sessions of the training year to ensure cadets understand the requirements of Master Cadet;
- c. the requirement to complete mandatory periods in PO 503 (Lead Cadet Activities) early in the training year to ensure cadets are prepared for the requirements of project management;
- d. the benefits of completing EO C507.04 (Reflect on the Cadet Experience), if selected, near the conclusion of Master Cadet;
- e. the requirement for the cadet to complete three complementary training self study packages, with the option to complete more if the cadet desires, to include a minimum of one elemental EO;
- f. the option of grouping cadets together to guide the cadets through a complementary training self study package, replacing short answer questions with group discussion;
- g. the requirement to structure OJT time such that the cadet has adequate time to plan and prepare for PO 503 (Lead Cadet Activities) and to complete the requirements of Chapter 3, Annex B (Assessment of Learning Plan – Master Cadet);

- h. the logical grouping and sequencing of EOs to take advantage of interrelationships that exist within the instructional material; and
- i. the availability of a technical specialist, if required to conduct an activity.

22. Training Days / Weekends:

- a. The planning and conduct of training days is the responsibility of the corps. Day training shall be conducted at the corps parade location or, where suitable facilities do not exist at the corps parade location, within the local community.
- b. Cadets participating in Master Cadet training shall participate in all approved training days / weekends.
- c. The planning and conducting of PO 513 (Attend Workshops) is the responsibility of the RCSU. Cadets are to be given adequate warning of scheduled workshops to allow them to submit their names for workshops that interest them from a range of options.
- d. Where support of mandatory or complementary days / weekends is required, requests shall be forwarded to the appropriate RCSU. Refer to CATO 40-01, *Army Cadet Program Outline*, and regional orders for amplified information on support available from RCSUs.

CHAPTER 3 CADET EVALUATION

PURPOSE

1. The purpose of this chapter is to outline the specific evaluation requirements for achievement of Master Cadet Qualification.

LEARNER EVALUATION

2. A-P9-050-000/PT-Z01, *Manual of Individual Training and Education, Volume 1* defines learner evaluation as, “the assessment of progress made by participants during an instructional programme (formative evaluation) and of their achievement at the end of the programme (summative evaluation).”

3. Formative evaluation, or assessment **for** learning, takes place during a phase of instruction and helps cadets and instructors recognize progress or lapses in learning. Through formative evaluation, the instructor can: identify when corrective or remedial action is required, plan the next steps in instruction, provide cadets with feedback so they can improve, and reinforce learning to aid the cadet in retaining information. Formative evaluation may also include opportunities for cadets to practice using Performance Checks (PCs) employed in summative evaluation. Details for assessment for learning are outlined within the applicable lesson specifications located in Chapter 4.

4. Summative evaluation, or assessment **of** learning, takes place to determine whether learners have achieved POs, or critical EOs (those deemed prerequisites to further individual training and education) and are used at the end of a phase of instruction. Details for assessment of learning are detailed within this chapter.

CADET EVALUATION DESIGN AND DEVELOPMENT

5. Cadet evaluation is designed and developed incorporating contemporary professional practices from the fields of education and youth development as well as considering best practices in use within the CCO.

6. Cadet evaluation is designed and developed so that all cadets are capable of achieving all POs and associated EOs. To motivate cadets to learn, cadet evaluation builds on success and confidence rather than demotivating cadets with failure and defeat.

7. The following fundamental assessment principles shall guide the conduct of Master Cadet assessment activities:

- a. in advance of training, the instructor shall inform the cadet of POs and EOs associated with the qualification;
- b. in advance of training, the instructor shall inform the cadet of the assessment plan for the qualification and provide the cadet with an opportunity to review the applicable forms used in assessment;
- c. assessment information shall be shared between the instructor and the cadet and used to revise and guide instruction and learning;
- d. the instructor shall provide feedback that is descriptive, constructive, frequent, and timely; helping the cadet to identify strengths and address areas requiring improvement;
- e. the cadet shall be actively, consistently and effectively involved in assessment; including learning to manage their own learning through the skills of self-assessment; and

- f. the cadet shall actively, consistently and effectively communicate with others about their learning progress.

CP DEVELOPMENTAL PERIODS (DPs)

8. The CP is designed across adolescent DPs adapted to suit the CP target population. Outlined in each DP are specific philosophies and approaches to learning and assessment that influence design, development and conduct of cadet training and assessment.

9. A DP is a time frame, during a cadet's progression through the CP, in which the cadet participates in training and is provided opportunities to develop desired knowledge, skills and attitudes that support the aim of the CP and contribute to the achievement of the CP outcomes.

10. Progressive training levels and associated learning objectives distinguish each DP; ensuring training is relevant, achievable and age-appropriate for the cadet population. DPs and associated training levels are designed to be completed in a sequential manner and are also fluid, which allows a cadet to progress to the next training level or DP while still working on completion of learning objectives from the previous level or DP.

11. The design and development of cadet training and evaluation is based on the basic overview of the DP characteristics located at Chapter 3, Annex A.

CADET ASSESSMENT OF LEARNING PLAN

12. The Assessment of Learning Plan located at Chapter 3, Annex B, provides an overall strategy for using assessment activities to determine if the cadet meets the requirements for Master Cadet qualification. The Assessment of Learning Plan will:

- a. provide an outline of each assessment of learning activity including its purpose, when it will occur, and details the assessment instrument(s) used to support cadet evaluation;
- b. identify the learning target(s) associated with the PO and / or EO being assessed, to include:
 - (1) **Knowledge Mastery.** The facts, concepts and theory a cadet needs to know;
 - (2) **Reasoning Proficiency.** A cadet uses what they know to solve a problem, make a decision, make a plan, think critically, set goals, or self-assess;
 - (3) **Skills.** Performance demonstration; where the cadet demonstrates their ability to perform a skill. To be assessed, these performances must be demonstrated by the cadet and observed by an assessor;
 - (4) **Ability to Create Products.** A cadet uses their knowledge, reasoning and skills to create a concrete product; and / or
 - (5) **Attitudinal / Dispositional Changes.** A cadet's attitude about learning, safety, conduct, etc. Targets in this realm reflect attitude and feeling. They represent important affective goals we hold for a cadet as a by-product of their CP experience, and as such are not generally assessed for the purpose of attaining a qualification; and
- c. identify the assessment method(s) that best matches PO and / or EO learning targets, to include:
 - (1) **Selected Response.** A cadet selects the correct or best response from a list provided. Formats include multiple choice, true / false, matching, short answer, and fill-in-the-blank questions. Although short answer and fill-in-the-blank questions do require cadets to generate an answer, they call for a very brief answer that is counted as right or wrong, so these have been included in the selected response category;

- (2) **Extended Written Response.** A cadet is required to construct a written answer in response to a question or task rather than select one from a list. An extended written response is one that is at least several sentences in length;
- (3) **Performance Assessment.** This assessment method is based on observation and judgment; performance or product is observed and a determination is made as to its quality; and / or
- (4) **Personal Communication.** Gathering information about a cadet through personal communication, learning is assessed through interpersonal interaction with the cadet.

ASSESSMENT INSTRUMENTS

13. Specific assessment instruments have been designed to support each assessment activity within the assessment of learning plan. These are meant to standardize assessment activities and cadet evaluation for all cadets attempting the qualification. Assessment instruments are located at Chapter 3, Annex B, Appendices 1–6.

ADDITIONAL ASSESSMENT OF LEARNING ACTIVITIES

14. No additional cadet evaluations, eg, theory tests or performance checks, are to be used to determine Master Cadet qualification eligibility. Therefore, these national standards are not to be supplemented with additional regional and / or local standards.

OJT ASSESSMENT FOR LEARNING

15. There is no formal assessment tool associated with OJT. However, the assessment instruments used for assessment of learning for PO 503 (Lead Cadet Activities) and PO 509 (Instruct Cadets) may be used for assessment for learning during OJT. Additionally, the Crse O is expected to monitor the progress of the cadet as outlined in Chapter 3 to include regular feedback on OJT performance. When providing feedback on OJT performance, review with the cadet the following:

- a. the tasks the cadet was assigned to complete since the last feedback session;
- b. the cadet's feedback on how they felt they did in the accomplishment of those tasks;
- c. the cadet's performance in completing the tasks assigned, identifying one or two areas where the cadet could improve and several areas where the cadet has done well or shown improvement;
- d. the cadet's attendance and the cadet's schedule over the next reporting period; and
- e. the cadet's short- and long-term goals with the cadet corps.

16. The cadet shall contribute to the feedback session by completing a self-assessment of their performance in their various leadership and instructional roles since their last feedback session and being prepared to discuss their development and experience.

17. To aid in continuity between feedback sessions, the Crse O should maintain notes on the progress of the cadet and areas identified where the cadet could improve. It is recommended that feedback sessions be conducted at a minimum of once every two months.

APPROVAL OF ACTIVITY PLANS

18. Unique to Master Cadet, the cadet will have to complete some requirements of the Assessment of Learning Plan, Chapter 3 Annex B, as self-directed performance outside of normal authorized cadet activities.

In such cases, the Crse O and cadet shall agree on an activity plan to be followed. The corps Commanding Officer shall be the approving authority for all activity plans.

MASTER CADET QUALIFICATION STANDARD

19. The minimum standard for Master Cadet qualification is:
- a. Gold Star qualified;
 - b. 60 percent overall attendance in all scheduled mandatory and complementary training as calculated by the corps; and
 - c. successful completion of each PO as outlined in the Master Cadet Qualification Record located at Chapter 3, Annex C.
20. There is no minimum or maximum timeframe in which the cadet must achieve Master Cadet. Normally a cadet will be capable of achieving Master Cadet in less than the two years allocated to the training level and may be awarded the Master Cadet qualification at that time. However, there shall be no penalty assigned to a cadet who requires additional time to complete Master Cadet.

RECOGNITION OF ENHANCED PROFICIENCY ACHIEVEMENT

21. Certain POs within the Assessment of Learning Plan allow for recognition of an enhanced proficiency level of achievement. The assessment instructions for the applicable PCs outline how proficiency levels are achieved and recorded on the Master Cadet Qualification Record, Chapter 3, Annex C. This information highlights a cadet's strength(s) within the achievement of the qualification. The following definitions differentiate baseline proficiency and enhanced proficiency levels of achievement:
- a. **Baseline Proficiency.** A cadet achieves baseline proficiency by demonstrating the performance standard outlined in the applicable PO; and
 - b. **Enhanced Proficiency.** A cadet achieves enhanced proficiency by exceeding the performance standard outlined in the applicable PO.

CADETS NOT MEETING THE QUALIFICATION STANDARD

22. A cadet who does not meet the qualification standard for any PO shall be given a reasonable opportunity to achieve the standard. Unless otherwise specified in the Assessment of Learning Plan and associated assessment instruments, Chapter 3, Annex B, there is no limit to the number of additional opportunities that may be afforded to the cadet, provided it is within the resources of the corps.
23. Where a cadet requires more than two training years to achieve the qualification standard, the CO may grant additional training time to the cadet. All POs achieved up to that point shall continue to be recognized. In such a case, the attendance requirement shall be calculated based on the most recent 12 months of attendance. Cadets may not receive a waiver for any Master Cadet PO requirements.

RECORDING AND REPORTING CADET ACHIEVEMENT

24. The progress of each cadet shall be recorded on the Master Cadet Qualification Record, located at Chapter 3, Annex C, which is also used to determine successful completion of Master Cadet qualification. COs are responsible for ensuring the results are recorded on each cadet's DND 2399, *Cadet Personnel Record*.

MASTER CADET CERTIFICATE OF QUALIFICATION

25. The CF 558, *Cadet Certificate of Qualification* (NSN 7530-21-870-7685), shall be awarded to each cadet upon successful completion of the Master Cadet qualification.

UPGRADING OF PROFICIENCY ACHIEVEMENT

26. The timeframe for completion of Master Cadet is flexible, allowing a cadet who has qualified Master Cadet the option to pursue the upgrading of any assessment result at any time following achievement of the qualification standard. Therefore, as an example, subsequent to the awarding of the Master Cadet qualification Cadet Certificate of Qualification, a cadet could choose to pursue enhanced proficiency in a PO in which they had previously achieved baseline proficiency. If successful, the higher standard would replace the previous achievement on the *Master Cadet Qualification Record*.

MONITORING CADET PROGRESS

27. Cadets must meet the standard of behaviour and conduct expected from all cadets. The Crse O during cadet interviews and personal counselling should adopt a proactive approach towards difficulties.

28. The Crse O shall meet formally and informally with cadets throughout the training year to discuss the cadet's progress toward Master Cadet qualification (assessment for learning) and to provide feedback on overall performance. The Crse O will meet with each cadet at the end of Master Cadet training to review and verify the completed A-CR-CCP-705/PW-001, *Royal Canadian Army Cadets Master Cadet Logbook* and Chapter 3, Annex C, *Master Cadet Qualification Record*. Guidelines for conducting cadet interviews are located at Chapter 3, Annex D.

29. Frequent absences from mandatory and complementary training that could result in the cadet not meeting the minimum standard for Master Cadet qualification must be addressed in accordance with CATO 15-22, *Conduct and Discipline – Cadets*.

TRAINING COUNSELLING SESSION

30. A training counselling session is used when a cadet is having difficulties progressing toward Master Cadet qualification and an intervention is required to set goals for corrective action and / or remedial instruction. These counselling sessions focus on training-related issues. The Trg O is responsible for conducting training counselling sessions. Guidelines for conducting training counselling sessions are located in Chapter 3, Annex E and the Training Counselling Session Form is located at Chapter 3, Annex E, Appendix 1.

ASSESSMENT INSTRUCTIONS

PREPARATION

PRE-ASSESSMENT INSTRUCTIONS

Review the assessment plan, assessment instructions and 502 PC and become familiar with the material prior to conducting the assessment.

There is no time allotted for the PC as it is to be administered whenever the cadet completes the activities listed in their community service plan.

PRE-ASSESSMENT ASSIGNMENT

1. The cadet shall review the 502 PC Assessment Checklist and become familiar with the assessment criteria.

Corps activities – participating in corps community service activities; poppy days;

Community activities – volunteering with other youth groups; being involved with community theatre; helping with clothing drives, food drives, soup kitchens, and food banks; volunteering with programs such as meals-on-wheels, Special Olympics, and Tidy Towns programs; being involved with green-up / clean-up campaigns; helping with charitable fund raising;

School activities – being a breakfast program volunteer, a canteen volunteer, raising and lowering the flag; tutoring (free of charge) younger students at lunch time / after school; helping with the school newsletter / web site; helping with community performances of the school drama club (actor, make-up,

lighting, set design, stage manager); representing the school at special events; being a member of the student council; and

Individual activities – helping the disadvantaged; coaching / refereeing / keeping statistics / timekeeping etc. with sports programs; helping the elderly (shopping, snow removal, cleaning gutters, painting fences, washing windows, running errands, yard work); setting up an elder fair by inviting seniors to set up displays on their interests, hobbies and display memorabilia; documenting seniors lives and sharing them with family; producing a newsletter / web site for the seniors home; volunteering at the seniors home / hospital; being involved in Church related activities (choir, youth group, Sunday school).

4. Have the cadet carry out their community service plan and meet with them as required to deal with any difficulties which may arise.

ASSESSMENT METHOD

Performance assessment was chosen for this PC as it allows the assessor to review the cadet's level of participation in community service.

ANNEX B, APPENDIX 3
504 PC
ASSESSMENT INSTRUCTIONS

PREPARATION

PRE-ASSESSMENT INSTRUCTIONS

Review the assessment plan, assessment instructions and 504 PC and become familiar with the material prior to conducting the assessment.

There is no time allotted for the PC as it is to be administered whenever the cadet completes the activities listed in their physical activity plan.

PRE-ASSESSMENT ASSIGNMENT

The cadet shall review the 504 PC Assessment Checklist and become familiar with the assessment criteria.

Have the cadet review their physical activity plan and logbook entries describing their involvement in physical activity.

ASSESSMENT METHOD

Performance assessment was chosen for this PC as it allows the assessor to review the cadet's physical activity plan and determine the cadet's involvement in physical activities.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of this PC is to assess the cadet's level of participation in physical activity. As the intent of PO 504 is for the cadet to adopt an active lifestyle, this PC is intended to challenge the cadets to participate in a minimum of seven hours of physical activity per week (ie, one hour per day).

RESOURCES

- 504 PC Assessment Checklist,
- Physical Activity Plan, and
- Royal Canadian Army Cadets Master Cadet Logbook.

ASSESSMENT ACTIVITY LAYOUT

This assessment shall be conducted in a suitable location which is comfortable for the Crse O and cadet.

ASSESSMENT ACTIVITY INSTRUCTIONS

1. Work with the cadet to develop a physical activity plan which describes how the cadet will participate in physical activities throughout the training level. The cadets shall be encouraged to maintain a record, such as the sample below, of their physical activity in their logbook.

Date	Activity	Number of Hours	Cumulative Total	Signatures

2. The cadet's physical activity plan must be approved by the cadet's CO and shall include a variety of individual, group, indoor and outdoor activities, such as:
 - **Volksports** (walking, hiking, jogging, backpacking) http://walking.about.com/od/clubsivvcanada/Canadian_IVV_Volksport_Walking_Clubs;
 - **Orienteering** (www.orienteeing.ca);
 - **Biathlon** (www.biathloncanada.ca);
 - **Outdoor activities** (hiking, cross-country skiing, snow-shoeing, canoeing, running, bicycling, walking to school / cadets etc., completing chores); and
 - **Indoor activities** (minor team games, organized sports, working out, physical education courses, swimming, skipping).
3. Have the cadet carry out their physical activity plan and meet with them as required to deal with any difficulties which may arise.
4. Meet with the cadet upon completion of their physical activity plan and determine their level of participation.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

1. Indicate the overall performance assessment on the Assessment Checklist as:
 - a. **Incomplete:** The cadet did not complete an average of seven hours of physical activity per week over 16 consecutive weeks.
 - b. **Completed without difficulty:** The cadet has completed an average of seven hours of physical activity per week over 16 consecutive weeks.
 - c. **Exceeded Standard:** The cadet has completed an average of seven hours of physical activity per week over 24 consecutive weeks.

It is important to note that the intention is for the cadet to make efforts to be active on a regular basis. The term “average” is used in the statements above as it is understood that occasionally, for valid reason, a cadet may not complete seven hours on a given week but other weeks may exceed the seven hours.

For example, logging 120 hours of physical activity in the first eight weeks and none in the next eight (or vice versa), is not inline with the intent.

2. Record any pertinent observations made during the meeting with the cadet in the assessor’s feedback section of the Assessment Checklist.
3. Sign and date the Assessment Checklist.
4. Ensure a copy of the Assessment Checklist is attached to the cadet's training file.
5. The overall result will be recorded on the Master Cadet Qualification Record located at Chapter 3, Annex C.

PROVIDING ASSESSMENT FEEDBACK

Discuss the overall performance results with the cadet and provide them with a copy of the completed checklist.

The cadet shall be encouraged to make physical fitness a part of daily living.

CADET INTERVIEW GUIDELINES

PREPARATION FOR A PROGRESS INTERVIEW

PRE-INTERVIEW INSTRUCTIONS

Review the interview guidelines and the Cadet Interview Form located at Chapter 3, Annex D, Appendix 1 and become familiar with the material prior to conducting the interview.

Where discussion is being directed toward specific topic areas, ensure that any required support materials are prepared in advance and distributed to the cadet to review. This could include training schedules, the Assessment of Learning Plan (Chapter 3, Annex B), PC assessment instruments, etc.

Schedule interviews to allow approximately 10-15 minutes per cadet.

PRE-INTERVIEW ASSIGNMENT

Have the cadets review any support materials so they are able to attend the interview prepared to discuss the specific topic areas, as well as their expectations and personal goals.

CONDUCT OF A PROGRESS INTERVIEW

PURPOSE

The purpose of conducting a progress interview is to discuss the cadet's learning progress toward their qualification (assessment for learning) and to provide feedback on overall performance.

RESOURCES

- Note paper,
- Pen / pencil, and
- Cadet Interview Form.

INTERVIEW LAYOUT

Set up the interview location so that both the interviewer and cadet are comfortable.

INTERVIEW INSTRUCTIONS

Tips for a successful interview:

Ask questions that will provoke thought; in other words avoid questions with a yes or no answer.

Manage time by ensuring the cadet stays on topic.

Listen and respond in a way that indicates you have heard and understood the cadet. This can be done by paraphrasing their ideas.

Give the cadet time to respond to your questions.

1. Have the cadet enter the area of the interview.
2. Ask the cadet how they feel they are progressing in the Star Level.

3. Give the cadet feedback on their progress and their overall performance, highlighting any gaps that may exist between the cadet's self-assessment and the officer's observations.
4. Help the cadet make an action plan that takes into consideration the cadet's goals and the requirements of the qualification. Action plans should be realistic and achievable and written using positive language.

	The action plan is a negotiated set of steps that the cadet commits to taking to reach their goals. The officer should not dictate steps or goals, but should guide the cadet toward a mutually agreed upon plan of action that meets both the needs of the cadet and the needs of the CP. The action plan must be achievable for the cadet, provide the cadet with guidelines on the action they must take to be successful and be written using positive language.
---	--

5. Have the cadet sign Section 2 of the Cadet Interview Form.
6. Sign Section 2 of the Cadet Interview Form.

POST-INTERVIEW INSTRUCTIONS

Meet with the cadet throughout the training year to discuss their progress toward achieving the qualification and to revise their action plan.

PREPARATION FOR FINAL INTERVIEW

PRE-INTERVIEW INSTRUCTIONS

Schedule interviews to allow approximately 10-15 minutes per cadet.

PRE-INTERVIEW ASSIGNMENT

Have the cadets review the personal goals they established at the beginning of the training year, any action plans, and come to the interview prepared to discuss their success in reaching those goals. Have the cadet think about their personal goals for the summer and following training year.

CONDUCT OF FINAL INTERVIEW

PURPOSE

The purpose of the final interview is to discuss the completed Qualification Record, the cadet's goals that were discussed during the initial interview, and new goals for the summer and following training year.

CHAPTER 4

SECTION 1

PERFORMANCE OBJECTIVES AND TRAINING PLAN

PURPOSE

1. The purpose of this chapter is to outline the specific POs associated with the Master Cadet qualification.

PERFORMANCE OBJECTIVES (POs)

2. POs are a description of the cadet's abilities after training is complete. They include a description, in performance terms, of what the individual must do, the conditions under which the performance must be completed, and the standard to which the performance must conform. These three elements are respectively defined as:

- a. a performance statement;
- b. a conditions statement; and
- c. a standard.

3. This chapter also details the training plan that is designed to assist the cadet to achieve the required POs using Enabling Objectives and Lesson Specifications that are the key reference used for development of A-CR-CCP-705/PF-001, *Master Cadet Instructional Guides*.

ENABLING OBJECTIVES (EOs)

4. EOs are a description of the cadet's abilities after each unit of learning is complete and constitute a major step toward achieving the PO. EOs may correspond to the major components identified in the first round of deconstructing POs or they may result from grouping several related components. They are composed of three essential parts:

- a. a performance statement;
- b. a conditions statement; and
- c. a standard.

LESSON SPECIFICATIONS (LSs)

5. LSs describe the instructional strategy to be applied to each EO and include:

- a. supporting teaching points;
- b. references;
- c. learning activities (methods, media and environment);
- d. estimated timings;
- e. assessment directions; and
- f. any remarks that further clarify the design intent.

ASSESSMENT FOR LEARNING

6. Formative evaluation, or assessment for learning, takes place during a phase of instruction and helps cadets and instructors recognize progress or lapses in learning. These assessments can also provide cadets with opportunities to practice PCs. This helps to diagnose cadet needs, eg, corrective action or remedial instruction, plan the next steps in instruction and provide cadets with feedback they can use to improve. It also reinforces learning so that it can be retained longer. Details for Master Cadet assessment for learning are outlined within the applicable lesson specifications located at Chapter 4.

| c. Group Discussion: | 25 min |
| d. In-Class Activity: | 10 min |
| e. Total: | 60 min |

6. **Substantiation:**

- a. An interactive lecture was chosen for TPs 1 and 2 as it is an effective way to generate interest and orient the cadets to globalization and distinguish between local, national and global citizenship.
- b. A group discussion was chosen for TPs 3 and 4 as it allows the cadets to interact with their peers and share their knowledge, experiences, opinions, and feelings about global citizenship. Sharing in the discussion encourages the cadet to examine their own thoughts and feelings and may prompt them to re-examine their previously held ideas. Participating in a group discussion improves the cadet's verbal communication and listening skills.
- c. An in-class activity was chosen for TP 5 as it is an interactive way to provoke thought and stimulate an interest in developing a definition of global citizenship.

<p>BEHAVIOUR MODELING</p> <p>Under development</p>			
<p>CASE STUDY</p> <p>Cadets are given a written problem, situation or scenario, to which they respond either individually or as a group in order to achieve a performance objective. The problem situation or scenario should match the experience level of the cadets and they should be given enough time either before or during the instructional period to analyze it. Responses to the case should be recorded under four headings: Facts, Assumptions, Problems and Solutions</p>	<ol style="list-style-type: none"> 1. Learning principles, attitudes and concepts. 	<ol style="list-style-type: none"> 1. Effective application of teaching principles instead of “preaching”. 2. Cadets can help each other learn. 3. High energy and perfect demonstrations. 4. Can be easily related to a real life situation in the past and for future applications. 	<ol style="list-style-type: none"> 1. Must be well organized and facilitated in order to ensure learning takes place.
<p>DEMONSTRATION AND PERFORMANCE</p> <p>Cadets observe the instructor performing the task in a demonstration, and rehearse it under the supervision of the instructor. A good example of this is drill instruction, where cadets are shown a movement and given the opportunity to practice and perform it.</p> <p>Demonstration Method</p> <p>A method of instruction where the instructor, by actually performing an operation or doing a job, shows the cadet what to do, how to do it and through explanations brings out why, where and when it is done.</p>	<p>Demonstration Method</p> <ol style="list-style-type: none"> 1. To teach manipulative hands-on operations or procedures. 2. To teach troubleshooting. 3. To illustrate principles. 4. To teach operation or functioning of equipment. 5. To teach teamwork. 6. To set standards of workmanship. 7. To teach safety procedures. 	<p>Demonstration Method</p> <ol style="list-style-type: none"> 1. Minimizes damage and waste. 2. Saves time. 3. Can be presented to large groups. 	<p>Demonstration Method</p> <ol style="list-style-type: none"> 1. Requires careful preparation and rehearsal. 2. Requires special classroom arrangements. 3. Requires equipment and aids.

<p>Performance Method</p> <p>A method in which the cadet is required to perform, under controlled conditions, the operations, skill or movement being taught.</p>	<p>Performance Method</p> <ol style="list-style-type: none"> 1. To teach manipulative hands-on operations or procedures. 2. To teach operations or functioning of equipment. 3. To teach team skills. 4. To teach safety procedures. 	<p>Performance Method</p> <ol style="list-style-type: none"> 1. Builds confidence. 2. Enables learning evaluation. 3. Reduces damage and waste. 4. Promotes safety. 	<p>Performance Method</p> <ol style="list-style-type: none"> 1. Requires tools and equipment. 2. Requires large blocks of time. 3. Requires more instructors.
<p>EXPERIENTIAL LEARNING</p> <p>Learning in the cadet program is centred on experiential learning. This involves learning knowledge and skills from direct experience. People learn best from their own experiences and can then apply the knowledge and skills in new situations. The four stages of the cycle may be considered and applied to all activities within the Cadet Program, regardless of methodology chosen.</p> <p>Stage 1: Concrete Experience: Cadets have an experience and take time to identify and define what the experience is. Sample activities: direct observations, simulations, field trips, reading.</p> <p>Stage 2: Reflective Observation: Cadets need to reflect on and examine what they saw, felt and thought while they were having the experience. Sample activities: discussion, journals / logs, and graphs.</p> <p>Stage 3: Abstract Conceptualization: Cadets work to understand and make connections from the experience to new or different situations. Sample activities: interview, discussion, model building, analogies and planning.</p> <p>Stage 4: Active Experimentation: Cadets look ahead to and plan the application of skills and knowledge acquired to future experience. Sample activities: simulation, fieldwork.</p> <p>Note: The cycle is ongoing as each learning experience builds on another.</p>	<ol style="list-style-type: none"> 1. To teach practical skills. 2. To learn how to learn. 3. To teach transferable skills. 4. To teach the process or principle. 5. To teach problem solving. 	<ol style="list-style-type: none"> 1. Knowledge is shared and created by everyone. 2. Everyone is actively involved in the teaching – learning process. 3. Numerous resources are used. 4. Cadet based. 	<ol style="list-style-type: none"> 1. Many resources are required (may be expensive). 2. Needs a lot of planning, preparation and organization prior to activity. 3. The instructor must master the subject developed. 4. Instructor needs very good pedagogical skills. 5. May not be a good process for learning details.

METHOD(S)	APPLICATIONS	ADVANTAGES	DISADVANTAGES
<p>FIELD TRIP</p> <p>Theoretical knowledge is reinforced through participation in an activity in a real-life setting. Prior planning helps to ensure all pre-training and safety standards are met. Field trip activities are planned and carried out to achieve clear instructional objectives that are understood by the cadets. Examples can include trips to areas of local interest, flying / gliding, hikes or boat trips.</p>	<ol style="list-style-type: none"> 1. Awareness of historical situations. 2. Can be used in conjunction with many other instructional methods. 3. To introduce / illustrate and confirm topics. 	<ol style="list-style-type: none"> 1. <p>GROUP DISCUSSION</p> <p>Cadets discuss issues, share knowledge, opinions and feelings about a topic in small groups to a specific goal. The instructor's questioning is flexible and minimal, and aims at encouraging cadets to explore their own experiences and opinions through peer interaction.</p>	<ol style="list-style-type: none"> 1. To develop imaginative solutions to problems. 2. To stimulate thinking and interest and to secure cadet participation. 3. To emphasize main teaching points. 4. To supplement lectures. 5. To determine how well cadets understand the concepts and principles. 6. To prepare cadets for application of theory or procedure. 7. To summarize, clarify points or review. 	<ol style="list-style-type: none"> 1. Increases cadet interest. 2. Increases cadet acceptance and commitment. 3. Utilizes cadet knowledge and experience. 4. Results in more permanent learning because of the high degree of cadet participation / cognitive involvement. 	<ol style="list-style-type: none"> 1. Requires highly skilled instructors. 2. Required preparation by cadets. 3. Limits contents. 4. Consumes time. 5. Restricts size of group. 6. Requires selective group composition.

	<ol style="list-style-type: none"> 8. To prepare cadets for instruction that will follow. 9. To determine cadet progress and effectiveness of prior instruction. 		
<p>GUIDED DISCUSSION</p> <p>Cadets are guided to reach performance objectives by drawing out their opinions, knowledge, experience and capabilities through a series of open ended lead-off questions, responses and follow-up questions. The instructor summarizes throughout and concludes effectively to ensure the performance objective is met.</p>	<ol style="list-style-type: none"> 1. When cadets are already familiar with the subject. 2. When the instructor wishes the cadets to learn through a series of structured questions. 	<ol style="list-style-type: none"> 1. The sharing of information, experiences and opinions by the group leads to the achievement of the teaching points and overall lesson objective. 	<ol style="list-style-type: none"> 1. Takes time to prepare. 2. The instructor must ensure that the cadets stay on the subject. 3. Off-topic questions must be handled with tact.
<p>IN-CLASS ACTIVITY</p> <p>In-class activities encompass a wide variety of activity-based learning opportunities that can be used to reinforce instructional topics or to introduce cadets to new experiences. In-class activities should provoke thought and stimulate interest among cadets, while maintaining relevance to the performance objectives. Examples of these activities include learning stations, videos, brainstorming / debating.</p>	<ol style="list-style-type: none"> 1. To reinforce instructional topics. 2. To provoke thought and stimulate interest among cadets, while maintaining relevance to the performance objectives. 2. Permits flexibility with class size. 3. Requires less rigid space requirements. 4. Permits adaptability. 5. Permits versatility. 6. Permits better control over content and sequence. 	<ol style="list-style-type: none"> 1. Encourages cadet passiveness. 2. Difficult to gauge cadet reaction. 3. Takes time to prepare.
<p>INTERACTIVE LECTURE</p> <p>The instructor-driven methodology combines both lecture and interaction to meet lesson objectives. Lecture portions of the lesson are offset with relevant activities such as videos with discussion, games to confirm and completion of handouts.</p>	<ol style="list-style-type: none"> 1. To orient cadets to the subject. 2. To introduce a subject. 3. To give instruction on procedures. 4. To present basic material. 5. To illustrate the application of rules, principles or concepts. 6. <p>LECTURE</p> <p>This is a formal or semi-formal discourse in which the instructor presents a series of events, facts, principles, explores a problem or explains relationships.</p>	<ol style="list-style-type: none"> 1. To orient cadets to the subject. 2. To introduce a subject. 3. To give instruction on procedures. 4. To present basic material. 5. To illustrate the application of rules, principles or concepts. 6. Saves time because of fewer interruptions. 	<ol style="list-style-type: none"> 1. Should have a clear introduction and conclusion. 2. Cadets may be passive and uninvolved.
<p>ON-THE JOB TRAINING (OJT)</p> <p>OJT prepares cadets to perform a job within the cadet program. Cadets learn job related behaviours / skills and the practice them through performance on the job. An instructor facilitates learning and coaches each cadet through the process. All cadets have the opportunity to reflect and provide feedback on their performance. Besides learning the job skills, cadets practice and refine peer and self-evaluation skills and skills in providing feedback.</p>	<ol style="list-style-type: none"> 1. Appropriate for learning leadership positions and learning supervisory responsibilities. 2. Learn to perform numerous tasks and responsibilities that would otherwise be listed. 	<ol style="list-style-type: none"> 1. Gives ownership to the learner to learn required skills. 2. Potential for a rewarding a situation. 3. Challenging. 	<ol style="list-style-type: none"> 1. Should be used in low risk activity or situations. 2. Extensive supervision is required to ensure proper content is covered. 3. May be a very challenging learning curve. 4. Requires an appropriate debriefing.

		<ul style="list-style-type: none"> 6. Highly participative in small groups. 7. Many resources involved. 	
<p>PROBLEM-BASED LEARNING</p> <p>Cadets analyse a problem, apply the steps in the problem solving method and work toward solving the problem in small groups. Problem-based learning requires cadets to participate and interact with each other while developing critical thinking skills. Instructors choose problem that stimulate thought, reinforce learning and relate to the cadets' interest and needs. Throughout the exercise, instructors pose thought-provoking questions and guide cadets without influencing their decisions.</p>	<ul style="list-style-type: none"> 1. Review. 2. In practical situations such as leadership development, parade appointments, etc. 	<ul style="list-style-type: none"> 1. Encourage participation by cadets. 2. Stimulate interest in the subject. 3. Maintain relevance to the performance objectives. 4. Many resources involved. 	<ul style="list-style-type: none"> 1. Critical thinking skills are required. 2. Broad knowledge of the subject matter is required.
<p>ROLE PLAY</p> <p>Cadets are assigned roles requiring them to interact with others in responding to various realistic situations. The instructor identifies the purpose of the role-play, provides the cadets with enough background information to help them accurately play their assigned role, and motivates them to become more fully involved in the activity. De-brief after the role-play is essential to connect the activity with the PO / EO.</p>	<ul style="list-style-type: none"> 1. Skills associated with social systems or human interactions; practical situations eg. Positive Social Relations for Youth, discipline issues, behaviour on the range, leadership, instructional techniques. 2. Attitudinal objectives. 	<ul style="list-style-type: none"> 1. High participation, interactive delivery and may lead to discussions. 2. Experience is developed in a supportive environment. 3. Can be very versatile depending on application eg, introduce a topic, mid-stage learning or as confirmation. 	<ul style="list-style-type: none"> 1. Participants can be easily side-tracked, need for good preparation and controls must be set appropriately. 2. Competence, experience and prepared instructors required.
<p>SELF-STUDY</p> <p>In a self-study method, the instructor provides materials and instructions to the cadets, then they learn the topic independently (learning at their own pace) often using a prepared package of information, written content, computer based learning, using videos, tapes (CDs) or models. Self-study does not need to be complex or in-depth; instructors can include self-study components as part of an interactive lesson or as a method on its own.</p>	<ul style="list-style-type: none"> 1. To provide remedial instruction. 2. To provide make-up instruction. 3. To maintain previously learned skills, which are not performed frequently enough. 4. To provide retraining on equipment and procedures that have become obsolete. 5. To upgrade production. 6. To accelerate capable cadets. 	<ul style="list-style-type: none"> 1. Reduces failure rates. 2. Improves end-of-course proficiency. 3. Saves time. 4. Provides for self-instruction. 5. Improves efficiency and economy for group or individualized instruction. 6. Reduces instructor implication. 7. Allows for very personalized feedback if present. 	<ul style="list-style-type: none"> 1. Requires local or commercial preparation. 2. Requires lengthy programmer training. 3. Increases expenses. 4. Requires considerable lead times. 5. Poses administrative problems. 6. Permits adaptive instruction. 	<ol style="list-style-type: none"> 1. Requires highly competent instructors. 2. Poses evolution problems. 3. Is more costly than most other methods.
<p>SIMULATION</p> <p>Simulation is a realistic representation of a situation (that cannot take place in the real environment) used to teach performance objectives without risk or complication. Cadets are active participants in the learning process. Instructor feedback is critical for learning. Many activities can be simulated (eg, first aid, leadership principles, dry firing).</p>	<ol style="list-style-type: none"> 1. Attitudinal objectives. 	<ol style="list-style-type: none"> 1. Cadets acquired the skills to conduct activities in the real environment. 2. Cadets receive critical feedback. 3. Allows for exploration of solutions. 4. Provides opportunity to practice skills. 	<ol style="list-style-type: none"> 1. Not applicable for large groups. 2. Cadets may be self-conscious.
<p>TUTORIAL</p> <p>The instructor works directly with the cadets to ensure the successful achievements of the learning objectives. This is a useful way to teach highly complex skills, knowledge and procedures, or to provided remedial training to cadets. This method focuses on the cadet's needs and the individualized assistance provided it motivating for the cadet. Tutorials are easily adaptable to the cadet's learning pace and style.</p>	<ol style="list-style-type: none"> 1. To teach highly complex skills and operations or operations involving danger or expensive equipment. 2. To provided individualized remedial assistance. 3. During a debriefing where learning must take place eg, monitoring. 	<ol style="list-style-type: none"> 1. Permits adaptive instruction. 2. Stimulates active participation. 3.
